

Environmental Policy Statement

Sibcas Ltd design and manufacture the most advanced and highly regarded range of relocatable accommodation available for rental or sale throughout the UK. Our accommodation is designed and manufactured to suit the precise requirements of an ever-increasing variety of clients.

We recognise the importance of environmental protection, and are committed to ensure that all operations are carried out in such a way that it minimises the impact on the environment.

In all of our activities we are committed to ensuring:

- Compliance with all relevant legislation, statutory regulations and other requirements which apply to our business.
- Continually improve product design and manufacturing processes to minimise the environmental impact.
- Prevention of pollution, reduction of waste and the control of environmental nuisance.
- Continual improvement in environmental performance.

We have identified the most significant environmental impacts of our business and have set objectives and targets to control these and will be reviewed quarterly and the internal SHE meetings. In particular we will strive to:

- Use energy, fuel and water efficiently to reduce unnecessary consumption.
- Reduce waste, disposing of that which we do produce in a proper manner and recycling suitable materials wherever practicable. When waste products cannot be re-cycled we will ensure that they are disposed of in a responsible manner.
- Promote the use of environmentally-friendly products and the sustainable use of natural resources.

In order to deliver these objectives, Sibcas are committed to the development, implementation and maintenance of an Environmental Management System that meets with BS EN ISO14001:2015. In line with this we will:

- Establish environmental objectives and targets to promote continuous improvement.
- Review our environmental performance on a regular basis.
- Promote environmental awareness and encourage employees to contribute to improving environmental performance.
- Work with our clients and supply chain in improving environmental management and promoting sustainable development.

The Board of Directors and Senior Managers are responsible for the implementation and maintenance of this policy, and will be supported and guided in this by the Safety, Health, Environmental and Quality department.

Sibcas encourage a shared ownership of environmental management by all employees and those working on our behalf to ensure compliance with this policy.

The policy will be displayed at all business locations and is freely available to all employees, the SHEQ and Environmental Policy statements are available to members of the public via the company website (www.sibcas.co.uk).
